

**INSTALLATION INSTRUCTIONS**

WIRE COLOR	CIRCUIT	INSTALLATION
DARK GREEN / RED	HORN POWER	Connect this wire to the "HORN OUT" location on the panel. Route the other end to your horn.
BLACK/RED	RADIO POWER	Connect this wire to the "RADIO" location on the panel. Route the other end to your radio. This is a keyed 12 volt feed.
RED/BLACK	HEAT / AC FEED	Connect this wire to the "HEAT / AC" location on the panel. Route the other end to your heater / ac switch and then from your switch to your blower motor. This is the accessory power feed for the heater / ac switch, and blower.
YELLOW/BLACK / GREEN	WIPER POWER FEED	Connect this wire to the "WIPER" location on the panel. Route the other end to feed your wiper switch or motor. See wiper manufacturer instructions for connection.
