A large portion of the beauty of Tri-Five Chevy’s lie in the pages of this exterior section, the parts that make these cars the true icons that they are. You will find the beautiful red, white and blue multi-colored emblems, with or without the chrome bezels, gold and chrome scripts and the big extravagant grilles along with other key parts that earned Danchuk it’s reputation. The complex grille surrounds, grille bars and unmistakable ‘57 aluminum side panel inserts along with all of the fancy hood detail like hood birds, hood rockets and vees. And let’s not forget the polished stainless pieces, which grace all three years of these beautiful cars.

We have spent literally decades doing the research and development so we could bring you the finest exterior pieces available for these cars. From stamped parts as small as our ‘55 gas door guard to monsters like our ‘57 one-piece bumper. We have never let the size or complexity of a part stand in the way of production or perfection.

If your classic needs everything for a restoration, or just some finishing touches, don’t hesitate. Danchuk exterior products are the best and they are backed by the best company in the industry!
The best emblems on the market today with all the correct colors: true red, white and blue. Our (best) emblems are backpainted and then vacuum-metallized for that reflector-like look. Each emblem is mounted inside a beautiful chrome bezel, a perfect glove fit. These faithful reproductions are used on 1955 through 1958 models. Made in the USA*. Hardware included.

HOOD, TRUNK AND GRILLE BAR EMBLEMS
Danchuk's highly acclaimed emblems are interchangeable with original equipment; they fit like the original and are easily installed into your bezel or grille bar, depending upon the application. One of our greatest concerns in reproducing emblems at Danchuk is that the colors be identical to the originals. These emblems are fine examples of that attention to detail. Made in the USA.

GRILLE BAR EMBLEM INSTALLATION KIT
Chevy’s original emblem mount tabs didn’t last long, so they created this replacement kit. One metal retainer and three rubber cushions hold the emblem firmly in place, and allow the emblem to be removed for cleaning. If you're replacing your emblem, this kit is a must. Made in the USA.
1957.........................................................................................#376.......$13.95/kit

CREST EMBLEMS
Whether you want to keep the original appearance of your 1957 Chevy or go with a shinier look, we've got you covered. Our forged aluminum emblems, part #2342, are made to accompany the Bel Air emblems, part #2341 on page 13. These emblems fit on the side panel inserts. The new show-quality emblems are made with the correct materials and processes and feature a deep, durable anodized gold luster. We’ve found our customers prefer both styles. Part #365 is die-cast and then gold-tone finished. Made in the United States of America*. 1955-57 Best, Bel Air ..............................................................#365* ......$45.95/pr.

SPINNER EMBLEMS
These spinner emblems are made with the same attention to detail that you find in our hood and trunk emblems. Each emblem is backpainted with true red, white, and blue Chevy colors and then vacuum-metalized for that highly-reflective look. Made in the USA. 1957-58..................#297.........$46.95/set

MANUFACTURING SCRIPTS & EMBLEMS
As with all of our American made castings, we start the process with the best virgin zinc on the market. After our crew has inspected each casting, we hand work every part in-house to assure they are perfect prior to plating. All our castings receive a copper buff to assure the show quality plating you have come to expect.
1955-56 "CHEVROLET" SCRIPTS
Found on the 150 and 210 models only. In ’55 they were located on the front fenders and in ’56, the rear fenders. Hardware included.
1955-56 .................................................................#540 ...........$39.95/pr.

"CHEVROLET" CLOCK DASH SCRIPT
Another one for Danchuk! We’ve carried this script for years but have just recently cut a new mold for a perfect new script. Made in the USA. You can’t tell this one from the original. Hardware included.

"CHEVROLET" DASH SCRIPT
For use on the 150 and 210, these scripts are finished in chrome.
1957 .................................................................#1056 ........$12.95/ea.

"CHEVROLET" ALUMINUM SCRIPT
Forged in aluminum and gold anodized, this show-quality script is 100% original. Though our other scripts are beautiful, this is the most correct reproduction script we offer. The difference is in the finish: gold anodized aluminum has a buff look that is without equal, and absolutely identical to the Chevrolet version. You can’t get any closer than this! Hardware included. Made in the USA.

1955 GRILLE
Our 1955 grille is a beautiful example of American-made excellence. Ours is the only Made in the USA reproduction '55 grille on the market. We use only top quality steel and chroming processes. All stamping and assembly is done right here in our California facility. Factory style rivets supplied. Don’t compromise quality when it comes to your American classic... Buy Danchuk. "There's no comparison!" See page 18 for optional grille fasteners.
1955..................................................#478 ..........$259.95/ea.

1955 STAINLESS GRILLE
We do offer a stainless version of the 55 grille, but we want to point out that polished stainless does not reflect with the same brilliance or color as chrome. With that being said, you may find that the rest of the surrounding chrome on the front of your car looks quite different.
1955..................................................#10203 ........$485.00/ea.

1956 GRILLE
Like our 1955 Grille, this 1956 piece of jewelry is 100% stamped and assembled right here in our California facility. To get a part this large and with this many different pieces to look this beautiful was no small task. We did everything necessary to make sure that it is everything and more that you have come to expect from quality American workmanship. Factory style rivets supplied. See page 18 for optional grille fasteners. Made in the United States of America.
1956..................................................#479 ........ ....$299.95/ea.

1956 STAINLESS GRILLE
We do offer a stainless version of the 56 grille, but we want to point out that polished stainless does not reflect with the same brilliance or color as chrome. With that being said, you may find that the rest of the surrounding chrome on the front of your car looks quite different.
1956..................................................#14203 ........$509.95/ea.

1957 GRILLES
So perfect, it is impossible to tell the difference between ours and Chevy N.O.S. We make this beautiful grille just like Chevrole produce it in 1957. Each part is die stamped and then gold anodized for the Bel Air or silver anodized for the 150 and 210. There is no reason to leave a tired original on your car with parts like these available. See page 18 for grille fasteners. Made in the United States of America.
1957 150 & 210 .........................#460A ............$104.95/ea.
1957 Bel Air .................................#460 ...............$104.95/ea.

1957 CUSTOM GRILLES
Utilizing much of the same tooling we use for our OE grilles, we have created these custom original style grilles to be used with our #15938 "Smoothie" bumpers. Filling the void left by the elimination of the bumper bullet guards these parts are absolutely beautiful and will give the front end a very sleek and clean look. Made in the United States of America.

hooD bars and extensions

Hood bars haven't been this good since the fifties and maybe not even then. We officially make all three of the hood bars right here in the United States of America using brand new Class-A tooling. We spent over a year of hard work to make all three of the molds to absolute perfection and our efforts have paid off ten-fold. All three of these parts are not only perfect in shape and fit, but you literally can't get a better quality casting to work with. We still hand work, fit and inspect each and every casting prior to sending them off for the best quality chrome plating job money can buy. You can't make the hood bars without some perfectly matching extensions. When we set out to make all the hood bars we knew that they just wouldn't be complete without the extensions. Our extensions next to our hood bars match so perfectly you won't believe it. We may sell these separately, but if you don't already have our hood bar you may want to consider the whole set. Save big money on our new 3-piece sets, it doesn't get any better than this. Made in the United States of America.

HOOD BIRDS
One of the most distinctive aspects of the mid-fifties Chevys are the beautiful hood birds. The focal point of your car shouldn’t be neglected. We spared no expense in the tooling for these birds, and we spend hours on hand work preparing them for plating. If your hood bird is pitted or showing its age, don’t waste your money on a fill and chrome job. Replace that faded glory with these top-notch Danchuk parts. Gaskets included. Made in the United States of America.

ALUMINUM SIDE PANEL INSERTS
We established our company’s reputation early with parts like our Bel Air side panel inserts. When we introduced them in 1978 their quality was the highest attainable, but we’ve never been content to leave well enough alone. After much research and experimentation we have found a way to produce a brighter panel while adding an extra level of protection to the material as well. The grooves are precision-cut to the original depth and width, showing off the subtle contrast between the polished ridges and the buff-finish grooves. After the intricate, multiple step process of material preparation is complete, we use first class American tooling to perfectly shape the panels, and most importantly put the complex contour in the back of the panel so they fit flawlessly against the quarter panels. All parts are Made in the United States of America.

ROCKER PANEL MOULDINGS
These stainless steel rocker panel mouldings are a must for the aging auto. No matter which year car you own, this popular accessory will add sparkle. Made in the USA*, we’ve upgraded our 1957 mouldings by constructing them entirely of stainless steel. Even though they are mounted in an area that is prone to moisture, this new design makes them almost indestructible. The 1955 and 1956 mouldings include mounting clips and nuts.

Paint Dividers

1955 Paint Dividers
We stamp each #152 from polished stainless steel and paint them white to match the #723 and #724 side mouldings. The paint dividers are essential on the two-tone model, but add a nice touch to one-color cars as well. Mounting hardware included. Made in the USA.

1955 Bel Air & 210 exc. Nomad ...............................................................#152 ........... $44.95/set

Accessory Gas Door Guard
This accessory should have come stock. Not only does it jazz up that quarter panel, but it helps to prevent chipping of the paint under the gas door. We tooled this one up from scratch to improve an already great part. All our tooling and parts for this gem are Made in the United States of America just like they should be. Fuel door bumper and screws are included.

1956 Front Fender Paint Dividers
Attach under the front fender moulding and wrap around the fender lip to give a nice clean division of paint colors.

TOP OF FIN MOULDING & INSERT
For reasons unknown to most this gorgeous moulding has not
been available until recently. The reason is basically the cost and
complexity of the tooling. We dove in head first and held back noth-
ing on this part. We guarantee you will be thrilled with the quality
and fit of this beautiful piece. Our insert is an exact reproduction
of the original. We built the tooling ourselves in our Santa Ana in-house tooling depart-
ment and manufacture them right here also. Made in the United States of America.

They’re finally here! We’ve finished production on our 1955 one-piece front bumpers. These parts are absolutely phenomenal. When we got into a tooling project this big we knew we’d have to be on top of our game. Well, we’ve even impressed ourselves with this one. We used nothing but top quality steel for both the tooling and the parts, then we gave them the most beautiful triple chrome plating job money can buy.

REAR CENTER CHROME BUMPER *

For those who just need the center section of their 1957 bumper. Danchuk now offers 3 different versions for you. The part #1845 fits the hardtops, sedans and convertibles, but for those who want to move the license plate off of the trunk and to the bumper we now offer the highly sought after Nomad/Wagon centers #1846 and #1846A. The #1846A goes one step further by eliminating the bumper guard holes for a cleaner custom look. 1846A requires use of a lighted license plate frame. See page 34 for lighted license plate frames.

TRUNK VEES
Designed with depressions on the underside to assist in opening the trunk. The 1957 stamping was a particularly difficult part to reproduce, but we’re proud to say that this one’s a real show-stopper! The 1956 chrome vee is equally beautiful. All 1956 V8’s and 1957 150 and 210 V8’s require a chrome vee. 1957 Bel Air V8’s require the gold finished version. Installation hardware included. Made in the USA.*.

After investing in new paint and exterior mouldings, finish the job by replacing those tired fasteners. Don’t risk your beautiful stainless steel mouldings on fasteners that are over 50 years old. Match your original to the part in the photographs above (not actual size). These fasteners are sold individually; see moulding clip sets for complete kits.
