Ask anyone who owns one of these classic cars and they will tell you that how the car looks under the hood is just as important as how it looks inside and out. In the under the hood section you will find just about anything you need to dress up and restore the engine compartment of your classic, including the all important rubber items that Danchuk has been making for years. Hood bumpers, wiring grommets, firewall grommets, firewall seals; all the necessary under hood rubber items are here in the under the hood section.

We have replacement bolt sets, cowl tag rivets and brand new “Made in the USA” hood springs, along with new original style hood hinges, in steel and stainless, as well as some really trick billet hinges by Eddie Motorsports and the Ring Brothers. We have custom billet hood baffle kits, hood braces and hood support braces along with brand new hood latch assemblies to replace a worn out original. Custom valve covers by Edelbrock and Billet Specialties along with breathers to match, and complete engine dress up kits by Pro-Form. Billet breathers, polished valve covers, valve cover wing nuts, valve cover gaskets, original valve cover stencils and heat barrier products from Thermo-Tec. Heck, we even have a replacement firewall panel with a 4” set-back for those fire breathing Big Block and tall valve cover Small Block installations making Danchuk a true “One Stop Shop”
COWL VENT GROMMETS
Don't allow your cowl vent to rattle! As old grommets age, they shrink and leave excess play that you'll hear every time you drive your car. Replace those "originals"—an old rubber part has no value on the collector's market!

1955-56 .............. #234 ...........$5.95/set

COWL TOP OUTER CORNER RUBBER BUMPERS
These grommets plug two holes in the cowl top, keeping water out of the cowl vent area.

1955-57 .............. #801 ............$4.95/pr.

POLISHED STAINLESS COWL BRACE COVER WITH CAP NUTS
Made in the USA.

1957 ....................#10562 .....$19.95/set

FIREFIREHALL WIRE HARNESS
GROMMET
This grommet is critical; if your wiring should chafe inside an unprotected firewall hole, the insulation will be ground away, causing short circuits and even electrical fires. Prevent by maintaining this part! Made in the USA.

1955 Best ...........#820 ............$5.95/ea.
1955 Good .........#16717 ........$3.95/ea.
1956-57 .............. #353 ............$3.95/ea.

A-ARM DUST SHIELDS
These shields are made exactly like Chevy's first design. Their primary job is to keep dirt out of the engine compartment, but engine heat and the elements are their chief enemy. Don't forget these important parts when restoring the engine compartment. Finish the job with new dust shield retainers (20053 & 20054). Made in the USA.

### Valve Covers with Chevrolet Scripts

These PMI valve covers are standard perimeter mount covers for pre-1986 small block Chevy engines. The CHEVROLET script and fins are cast into the cover and are raised. On powder coated parts, the powder coat is shaved off the top of the script and the fins. These valve covers feature cast-in baffling and a mid-height design that will clear most roller and/or ratio rockers. All of these covers feature:
- Strong sand-cast aluminum construction.
- Thick side walls and gasket flanges that will not bend when bolts are tightened.
- Cast-in internal baffles (1960-86 version) and mounting hardware is included.
- Late 59-66 Cast: $230.95/pr.
- Late 59-66 Orange: $349.95/pr.
- Late 59-66 Polished: $395.95/pr.

### Valved Covers

These sand cast aluminum valve covers feature raised CHEVROLET script lettering and 7 fins. They have perimeter mounting with staggered or offset bolt holes for 1955 to early 1959 cylinder heads. The mid height design clears most roller rockers. These valve covers do not have a provision for PCV, breather or oil fill because the original valve covers did not have a provision for PCV, breather or oil fill. This was done in the intake manifold.
- 1955-59 Orange: $349.95/pr.

### Edelbrock Classic Finned Valve Covers

These valve covers feature a textured black powder coated finish for a pleasing and unique finish and is the same finish as the NASCAR series manifolds.
