1957 REALDUCTION AIR INDUCTION SYSTEMS
The RealDuction front fender air induction system is the easiest way to get fresh air to your LS or other custom fresh air induction system. Made from sturdy 18-gauge steel and powdercoated black, these install in the front fender in place of the stock fresh air fender ducting with your existing sheet metal screws and allows proper installation of the front headlight bucket. The single fender kit includes one front fender air duct panel with 4-inch tubes and one firewall block off panel. The dual fender kit includes two front fender air duct panels with 4-inch tubes and two firewall block off panels.

1957 Single Fender ................................................................. #18645................................. $229.95/ea.
1957 Dual Fender (Shown) .................................................... #18646................................. $299.95/ea.

1957 REALDUCTION FRESH AIR DUCT BLOCK-OFF PANELS
These front fender and firewall block-off panels allow you to easily and cleanly remove the fresh air ducts from your classic. Made from sturdy 18-gauge steel and powdercoated black, these install on the front fender and firewall with your original sheetmetal screws. Using the front fender block off your front headlight buckets will install just like when the fresh air ducts were there and the firewall block-off plates cover the holes left by the vents.

1957 Firewall Plates Only .................................................... #18643................................. $47.95/pr.

### Firewall Wire Harness Grommets

This grommet is critical; if your wiring should chafe inside an unprotected firewall hole, the insulation will be ground away, causing short circuits and even electrical fires. **Made in the USA**.

### Stainless A-Arm Dust Shield Staples

These shields are made exactly like Chevy's first design. Their primary job is to keep dirt out of the engine compartment, but engine heat and the elements are their chief enemy. Don’t forget these important parts when restoring the engine compartment. Finish the job with new dust shield retainers (#2053 & 2054). **Made in the USA**.

COWL VENT GROMMETS
Don’t allow your cowl vent to rattle! As old grommets age they shrink and leave excess play that you'll hear every time you drive your car. Replace those “originals”, an old rubber part has no value on the collector’s market!

1955-56 .....................................#234 ............. $5.95/set

COWL TOP OUTER CORNER RUBBER BUMPERS
These grommets plug two holes in the cowl top, keeping water out of the cowl vent area.

1955-57 .....................................#801 .............. $4.95/pr.

1957 REAR OF HOOD BRACE BOLT (NEAR COWL)
1957...........................................#2894 ........... $3.95/ea.

SPARE TIRE WELL PLUG
Heat and time are the enemies for all rubber parts. Inspect your spare tire well, you may find these plugs missing entirely! Two needed per car. Plug can also be used for the end of the rocker panel plug.

1955-57 .....................................#825 .............. $2.75/ea.

FRONT FENDER ANTENNA PLUG
For cars that do not have antennas, this plug seals the hole in the body inside the fender.

1955-57 .....................................#804 .............. $3.95/ea.

1955 STARTER AND CONVERTIBLE TOP MOTOR GROMMET
Fits early 1955 starters and all 1955 convertible top motors.

1955 Best ...................................#915 ............. $4.95/ea.
1955 Good ...............................#16720 ........ $2.95/ea.

BALLAST RESISTOR COVERS
These little beauties are actually made out of stainless steel with a mirror bright finish that mates perfectly with our other chrome products. Made in the USA.

FENDER TO COWL BRACKET WASHERS
1955-57 .....................................#18024 .......... $2.95/pr.

COWL TAG RIVETS
Why use standard “pop rivets” or sheet metal screws when you now can get the correct tag rivets. For use on all GM models.

1955-75 .....................................#2687 ........... $8.95/pr.

### EDDIE MOTORSPORTS BILLET TRUNK HINGES

These billet trunk hinges match the Eddie Motorsports hood hinges and add a custom touch to an often-overlooked area. Billet hinges replace the stock torsion bar with a modern gas spring mounted on each hinge for smooth operation. Complete with mounting hardware and instructions. For convertible applications just switch the hinges and mount the gas spring to the wheel well.

**PML FINNED ALUMINUM VALVE COVERS WITH “CHEVROLET” SCRIPTS**

These sand cast aluminum valve covers feature raised “Chevrolet” script lettering and seven fins. These valve covers feature cast-in baffling and a mid-height design that will clear most roller and/or ratio rockers. All of these covers feature thick side walls and gasket flanges that will not bend when bolts are tightened, cast-in internal baffles (1960-86 version). The 1955-59 valve covers do not have a provision for PCV, breather or oil fill because the original valve covers did not have a provision for PCV, breather or oil fill. This was done in the intake manifold. The 1955-59 versions have staggered bolt holes for 1955 to early 1959 cylinder heads. Parts #17188, 17189 and 17190 are available machined with PCV and breather holes by special order. All these PML valve covers are also available in black by special order.

PROFORM VALVE COVERS
These valve covers are made to GM specs and are equipped with baffles and oil drippers (where applicable). They also feature recessed bowtie and Chevrolet emblems. Center bolt valve covers are for 1987-later small block and also include mounting bolts and washers. NOTE REGARDING AFTERMARKET VALVE COVERS : Aftermarket valve covers do not fit heads with a staggered bolt pattern, and will not fit 1955-early 1959 original V8s. All valve covers listed on this page are considered aftermarket valve covers.

VALVE COVERS FOR SMALL BLOCKS
Made of heavy-gauge steel, these covers are at least 20% thicker than typical aftermarket valve covers. Leakage problems caused by over-torqued fasteners are eliminated. Beautiful chrome plating meets GM quality specifications, and all covers bear the bowtie logo. For use on late 1959-86 Chevy small blocks. Parts #1931 and #1932 include the PCV baffle for those who wish to maintain the PCV hook-up. Technical Note: Production height valve covers and valve covers with baffles will not clear most stud girdle applications. All valve covers are sold in pairs and are equipped with air breather and PCV grommets, unless otherwise specified. These valve covers are not for use with staggered heads, nor are they legal for sale or use in California on pollution controlled vehicles. Gaskets and hardware not included.

### RUSSELL PERFORMANCE PROCLASSIC HOSES

For racers and performance enthusiasts who want high quality plumbing that is lighter and easier to assemble than traditional braided steel hose, Russell ProClassic hose is the perfect choice. It features a lightweight nylon fiber outer braid over a durable rubber core with a maximum pressure rating of 350 psi. It is capable of handling nearly every plumbing task on your car and is safe to use with fuel, oil or antifreeze. -6AN is equivalent to 3/8" hose, -8AN is equivalent to 1/2" hose, -10AN is equivalent to 5/8" hose.
