

Horn Relay

INSTRUCTIONS

The Replacement Horn Relay are marked with **H** (Horn), **B** (Battery), and **S** (Switch) which is similar to the Factory Relay. The Factory Headlight / Generator Harness (417) or Headlight / Internal Regulator Alternator Harness (2766) will connect as shown below. If the harness you have does not use the same colors as the factory harness see Diagram Below for a guide.

Our Classic Update 11203 and Highway 15 Circuit 12807 or 20 Circuit 12808 Harnesses for the most part are designed as plug and play kit for easy installation
