Up and down and up and down your windows go...for 50 years. No wonder they are rattling, sticking and making noise while you cruise. You will find everything you need to bring your doors and windows back to their original state within the pages of the doors and window section.

New glass, tinted, date coded, it’s here. Need new door handles? Danchuk’s quality inner and outer door handles and window cranks are here along with our paint gasket sets, locksets, door lock knobs, fur channel kits and our beautiful brand new windshield stainless. We even made windshield stainless for the custom guys that allow you to remove your wipers. Our beautiful wiper escutcheons and wiper arms and blades are here along with our quality front and rear window seals and vent window seals that are made of the finest quality rubber you can buy, they pass an Ozone test with flying colors, the true test of a quality rubber product.

Here you will find our door seal kits too along with roof rails for your Nomad and 4-door hardtop as well as all the door and rear tailgate bumpers you need to freshen things up. We also have all the little screw sets to replace the ones you lost and more items for the tailgate and cargo area on your Nomad than you probably even realize are there. To be honest, there are just too many things to list, so take a look for yourself!

WINDOW FUR CHANNEL KITS
Daily window use has usually worn those old fur channels to the point where the windows are loose, and may even rattle. Each kit of our “fuzzies” contains all of the parts you need to completely replace your window channels. We’ve reproduced these kits with all the correct contours and lengths. The exposed beaded edges of the channels are made of polished stainless steel, just like the factory originals. The hardtop kit does not include the upper portion of the roof line contour, but is available under part #2070, shown at left.
Made in the United States of America*.

GLASS METAL CHANNELS

There were more than one design for some channels; therefore, some of the channels listed below may not look exactly like the one's in your car. Minor modification may be necessary for some models. Channels are designed to fit all 55-57 model years. Glass setting channels, shown at right, are needed to complete your installation. For those of you who are planning to delete the Vent windows on your 2-door sedan or wagon, part # 16522 will make the job easier. This setting channel is made extra long to properly fit the wider door glass on vent delete applications. Part #16522 fits both sides, two required per car.

VENT WINDOW SEALS
Anybody that has ever replaced a set of these knows what a job it is. But that doesn’t change the fact that when they need to be replaced, they absolutely need to be replaced. This is why we have gone to great lengths to be sure that our seals are not only an exact fit, but are made of absolutely top quality rubber. We send samples of these seals out to a scientific lab to undergo a rigorous o-zone test to determine if there will be any premature cracking. We have consistently passed this test with flying colors and we are confident that you, our valued customer, will be thoroughly satisfied with the fit and quality of these seals. So if your vent windows need new seals, we have the fix for you.

WINDSHIELD MOULDINGS
A long sought after reproduction, all of these mouldings are now available. The time and money that goes into finding a decent original set and then having them de-dinged and polished is no longer necessary. Danchuk has made a beautiful set of mouldings for your car to take the pain and uncertainty out of the task. We even made some custom lower mouldings for the Hot Rodder that prefers to not use wiper escutcheons. Connector clips available on pages 429 and 436. Call for availability.
Danchuk, There’s no comparison.

DOOR SEALS WITH CLIPS
Our 100% accurate reproduction door seals fit all 1955, 1956, and 1957 Chevy sedans and wagons. They seal the doors just as well, and include the nylon fasteners that hold the seal in place, but lack the molded ends used on the original 2-door hardtop and convertible door seal (#914). For 4-door models, you will need two sets. All Danchuk seals are manufactured with the best rubber, tooling, and craftsmanship available. Made in the USA*. We recommend using 3M weatherstrip adhesive for installation.

1955-57 Sedan Delivery ...............................................#039 ........$22.95/ea.

TRUNK SEALS
Our trunk seals all require glue-in installations, just like the originals. For an excellent bond, we recommend 3M weatherstrip adhesive. In 1957, Chevy added nylon fastening clips to the design for more secure positioning. Our reproduction weatherstrip includes this important upgrade. Careful research, state-of-the-art rubber formulas, and precision tooling make these Danchuk seals the best value available. Made in the USA*.

**DANCHUK GIFT CREDIT**
Here’s the ideal solution, Danchuk gift credit! With thousands of items to choose from, you can be sure that your special someone will find exactly what they want. Call for details!
**LIFTGATE ARM REBUILD KIT**
Sure, you can dismantle the liftgate support arms and re-chrome them. But reassembling the supports with the same tired hardware is a big mistake. Included in this kit are all the parts needed to completely overhaul the liftgate supports. All parts are dimensionally accurate, and the support tabs are chrome plated per the original design. You can have it both ways: liftgate support arms that operate smoothly and look beautiful. *Made in the USA.*
