1. Remove instrument cluster and remove original Temperature Gauge from cluster.

2. Install Temperature Gauge into instrument cluster. Now reinstall Gauge Cluster into the dash and connect wires. See diagram below for wiring information.

**Testing the Gauge by use of OHM Meter**

1. Ignition to Ground 420 OHMS
2. Ignition to Sender 90 OHMS
3. Ground to Sender 330 OHMS

OHMS may vary + or - 10%
